

Introduction to Machine Learning Syllabus

MACHINE LEARNING FOUNDATIONS

Module 1. Linear Algebra and Calculus

Module 2. Probability and Statistics

Module 3. Python for Data Science

SUPERVISED LEARNING

Module 1. Linear Regression

Module 2. Logistic Regression

Module 3. Decision Trees and Random Forests

Module 4. Support Vector Machines

UNSUPERVISED LEARNING

Module 1. K-Means Clustering

Module 2. Principal Component Analysis

Module 3. Neural Networks Basics
